(Module I: Lecture & Hands-On Workshop)

## The 21<sup>st</sup> Century Denture - *Advanced Techniques*

(Module II: Lecture & Hands-On Workshop)

Presented by Stephen Wagner, DDS, FACP  
Module I - Lecture & Hands-On Workshop  
• Saturday, February 29, 2020  
Module II - Lecture & Hands-On Workshop  
• Friday - Saturday, April 3 - 4, 2020  
8:00 am - 5:00 pm

# Module I

## The 100 Concepts, Facts and Techniques Every Denture Maker Should Know (Lecture & Hands-On Workshop)

This is a basic denture making course designed for those dentists with a weak background in the denture making process. The course is designed to lead the dentist through the entire denture making process utilizing both analog and digital techniques. Although the history of denture making is honored, the techniques presented in this course emphasize contemporary materials and time saving clinical workflows.

### Topics to be covered:

- Welcoming (and educating) the patient
- Gathering information
  - Examining the patient
  - Developing your diagnosis
  - Classifying your patient
  - Developing your treatment plan
  - Learning when to refer
  - Developing and presenting your fee
  - Case presentation
  - Dentures made from existing dentures
  - Impression making concepts
  - Selecting the anterior teeth
  - Determining VDO Land CR
  - Making interocclusal records
  - Denture esthetics
  - Using the central bearing device
  - Seating the denture
  - Patient instructions
  - Dealing with complications

### Upon completion participants will be able to:

- Organize and implement a comprehensive clinical denture workflow into their office
- Construct complete dentures using both analog and digital techniques

#### COURSE DATE:

Saturday, February 29, 2020

#### TUITION:

\$625

Early Bird Registration: \$575  
(30 days in advance)

Breakfast, Lunch, Refreshments, and Course Materials included.

8 Hours of Continuing Education  
Course Code: 670

# Module II

## The 21st Century Denture - Advanced Techniques (Lecture & Hands-On Workshop)

This is a course for those dentists that want to serve the difficult patient. The course is problem based presenting solutions for the challenging edentulous patient. The course will be unique and will present digitally-based clinical techniques that addresses the complex edentulous patient.

### Topics to be covered:

- What the patient should (and should not) expect from removable complete dentures
- Trial and branching denture techniques
- Evaluating the old denture
- Cast analysis
- Soft tissue preparation
- Alveoloplasty and hard tissue preparation
- Dealing with the medically compromised patient
- Denture prosthetics for the patient with TMD
- Developing esthetics for the esthetically critical patient
- Advanced occlusal concepts
- The balanced denture
- Dealing with the gagging patient
- Dealing with complex complications

### Upon completion participants will be able to:

- Develop the diagnostic and treatment planning skills required to provide advanced denture services
- Provide the clinical techniques required to provide care for the difficult denture patient

#### COURSE DATE:

Friday - Saturday, April 3 - 4, 2020

#### TUITION:

\$1,250

Early Bird Registration: \$1,150  
(30 days in advance)

Breakfast, Lunch, Refreshments, and Course Materials included.
